

## **COCAG COST Training Event: ECADOC Summer School**

**DSW University of Lower Silesia, 2<sup>nd</sup> to 6<sup>th</sup> June 2025**

***Call for scholars who will deliver a workshop***

ECADOC 2025 is an activity of COCAG COST Network. The COCAG (*Critical perspectives on career and career guidance*) project is a COST Action, which aims at gathering scholars across Europe and beyond to explore how careers are changing in the contemporary world and consider what response is required from public policy and practice. **This training school will foster debate around individuals' careers in the changing reality and times of crises. It will enhance deeper understanding of policy makers and career guidance and counselling practices' critical responses to current challenges.**

We invite researchers with a keen interest in advancing methodological skills in career guidance and counselling to chair a workshop at the ECADOC Summer School for doctoral students.

The workshops aim to equip Ph.D. students with cutting-edge methodological competencies, covering quantitative and qualitative research techniques, innovative approaches, research planning, academic writing, the application of ICT in research, etc.

Each session will last two hours and is designed for groups of up to 12 students. Depending on interest and scheduling, workshops may be repeated twice to maximize student participation. Workshop organizers have several responsibilities, including coordinating workshop content, providing the programme in a timely manner, and moderating the programme throughout the workshop. Students should be provided with reading materials in advance.
